EXPERIENCE

FLAT WHITE CAPITAL (INDIAGOLD) | SENIOR SOFTWARE ENGINEER

September 2021 - Present | Gurugram, HR India

August 2022 - June 2025 | Onsite - Abu Dhabi, UAE

- Leading end-to-end development of Indiagold's digital gold loan platform, including backend, frontend, gateway, and integrations from planning to deployment.
- Tech Lead for 25+ feature releases; managed timelines, delivery ownership, release coordination, and post-release monitoring with product and QA teams.
- Implemented Experian credit report integration; reduced data fetch time from 1.5 seconds to under 100 milliseconds and database size from 20GB+ to < 1MB.
- Engineered a configurable processing fee system generating 10 crore INR+ in profit, automating computation across products with minimal manual intervention.
- Developed Renew/Rebook automation, reducing a 1+ day manual process to an asynchronous, one-click flow (< 10 seconds), enabling 600 crore INR+ AUM within the first 6 months of release.
- Owned and maintained Indiagold's Node.js Gateway layer, implementing error handling, multipart handling, redirection management, and controller-level standardization.
- Integrated APIs and services, including Docupilot, Legality, HyperTrack, Firebase Auth, Google SSO, Experian, and others, to automate documentation, authentication, and location workflows.
- Built multiple internal dashboards and lender tools (React + Next.js) to optimize daily operational efficiency.
- Collaborated with founders, product managers, and engineering managers for roadmap discussions, delivery planning, and sprint prioritization.
- Tech-Stack & Tools: React.js, Next.js, TypeScript, Tailwind CSS, Node.js, Java, Spring Boot, SQL, Metabase, Figma, Vercel, AWS Amplify

LIGHTSTONE LABS (EASYLOKAL) | FULL STACK DEVELOPER

November 2020 - August 2021 | Gurugram, HR

- Solely handled the frontend architecture of EasyLokal; set up the project from scratch with responsive design and UI components.
- Served as the only frontend developer; led end-to-end delivery from requirement discussions to rapid feature development and deployment.
- Maintained accelerated release cadence for investor demos, consistently delivering new product features under tight deadlines.
- Managed and maintained other company projects, including KrishiYog, ensuring smooth releases and UI consistency across products.
- Tech-Stack: Vue.js, Vuetify

INTERNSHIPS

QUALWEBS | ANDROID DEVELOPER

June 2019 - July 2019 | Indore, MP

- Project: Cab booking application named Drupp.
- Features of Project: Cab booking, cab selection, news feeds, shop, emergency alert, and many more features.
- Responsibility: Android application development for both drivers and user.
